

HARMONY ONLY
AN IDLE BOAST

Democratic State Convention Not as Peaceful as It Seemed.

MANY DISPLEASED

Convention Was Characterized by Contentions Behind the Scenes.

A PATCHWORK TICKET

Special A. D. Dispatch. Milwaukee, Wis., Sept. 5.—Few conventions of like nature to the just adjourned democratic one have ever been held in Wisconsin. While on the surface the feeling has been one of good nature and friendly spirit, a sort of rejuvenation of the whole party in fact, underneath the surface there was an element of party bickering that spoiled the effects of the whole convention.

While Mayor Rose is the choice of the people by their representatives in convention, still he has not with him the leaders of the party who were prominent before the free silver craze. They are still standing aloof. Their action will be watched by hundreds of others who were ready to come back into the party they deserted six years ago, if they saw the opportunity. These old time leaders were at the convention and were joyously received, but their wishes were not respected nor were they consulted as to what was best for the party's prosperity. While not openly annoyed still it is thought at democratic headquarters that they will not work with the same enthusiasm and vigor as they might have.

Trouble in the State The trouble came after the head of the ticket and lieutenant governor had been nominated. After the convention had unanimously placed in nomination John Wattawa, of Kewaunee, they wanted him to withdraw. Mayor Rose stopped that move by saying that if he was taken off the platform they would have to find another head of the ticket. Then came the pickering over the state officers.

Hard To Find The slate makers found that the filling of the nominations after the head of the ticket had been chosen were hard to find. Nominations for important state offices were pressed on first one and then another without success and the result as finally obtained is a patchwork affair.

As To Bryan It was thought at one time that an adoption of the Kansas City platform in the shape of an endorsement would be passed, but this was lost and all fear of such a move was done away with by the adjournment. Now the Bryan men claim treachery and they are disappointed. Taking all in all, the convention has not made the party a united one.

BUSINESS MAN IS
TAUGHT A LESSON

Finds to His Own Cost, What It Means To Defy Commercial Rating Agencies.

Several business men were talking this morning of the value of the Dunn and Bradstreet commercial rating agencies. In the course of the conversation one of the men told of the experience of a man who is now very prominent in business in this city, but who a couple of years ago found his financial standing seriously imperiled through the disregard of the agencies.

At that time, about two years since, an agent of the Dunn bureau called on him and asked for a statement of his financial resources and liabilities. His reply was terse but forcible, consigning the agent to unmaped localities. The latter left without a statement and consequently in the next rating list, there was a blank after the business man's name. Shortly after, the merchant ordered a quantity of goods from a large wholesale house. In reply he received a request that he furnish satisfactory bank references, as his rating was unsatisfactory. The same experience was repeated several times with different firms until he found great difficulty in securing consignments from any house of good standing.

After a few months of this an agent of Bradstreet called on the merchant. The agent's card was all that was necessary. Before he had time to state his purpose the dealer had given him all the facts that could possibly bear on the subjects of which Bradstreet desired to learn. Since that date the business man has found his standing with wholesale firms greatly improved and there is little danger that he will again answer a request for a financial statement with any remarks which might be taken to belie his good religious standing.

NEELY ARRIVES
ON MORRO CASTLE

He Has Been in Havana Since He Was Released from Prison.

New York, Sept. 5.—(Special.)—Charles F. W. Neely, who was one of the Americans released from a Cuban prison when the general amnesty act became operative, came up from Morro Castle, yesterday with the rest of the detained passengers of the Morro Castle, which arrived on Tuesday. "My future movements are very uncertain," he said in reply to questions while his luggage was being examined on the Ward Line pier. "I will consult my lawyer immediately, and I cannot say what I will do next until I have talked with him. I want to go to Washington as soon as possible. There is one thing that I wish you would say for me. The United States attorney, Mr. Burnett, sent an inquiry to the Cuban authorities, asking what they would like done in the way of a civil action. The matter was referred to the Cuban cabinet, and the secretary of state sent a reply that there was no civil responsibility whatever on the part of either Mr. Rathbone or myself. If Cuba has no cause for action, I cannot see how the United States can have any."

May Go Back When asked if he would return to Cuba Mr. Neely said it would depend on the result of the congressional investigation into his case. He would not talk about the merits of his case, or his experiences in Cuba previous to the amnesty act. Since his release he has been in Havana all of the time, and waiting until his presence here was necessary.

OLD VETERANS
TO MEET AGAIN

National G. A. R. Encampment To Be Held in Washington.

ARE MAKING PLANS

The White House Grounds To Be Transformed Into Military Camp.

EXPECT BIG CROWDS

(Special By Scripps-Mellae.) Washington, D.C., Sept. 5.—Arrangements for the national encampment of the Grand Army of the Republic to be held in this city October 6 to 11, are very rapidly nearing completion. Every accommodation for the veterans of the Civil war are being made and elaborate plans for their reception and entertainment are being made by the arrangement committees.

Camp Roosevelt. The White House grounds will represent a truly military scene with the thousand military posts stationed there and the tents of old veterans who will be accommodated in these historic grounds. While the White House additions and improvements are not yet completed it is thought that the grounds will be cleared of debris in a few days and ready for the tents.

Hospital Tents The six big hospital tents, fully equipped and with a full corps of regular army surgeons and nurses in charge will be located on these grounds and will be one of the features of the encampment. It is expected that this encampment will far surpass any of the past in numbers of old soldiers in attendance and preparations are made for the largest of crowds.

He Accidentally Discharges His Gun Towards a Member of Hunting Party.

(Special By Scripps-Mellae.) Redfield, S. D., Sept. 5.—The hunting party of which Theodore Roosevelt, Jr., is a member was disturbed by an accident today.

A gun in the hands of young Roosevelt was accidentally discharged and the contents entered the clothing of one of the prominent officials of the Northwestern railway with the party.

The charge did not pierce the skin. The accident occurred as Roosevelt was about to shoot at a covey of chickens.

E. Z. Zimmerman and Miss Gross of Jefferson, while driving along South Jackson street last evening collided with some material used by Mr. Cannon in building cement walks which obstructed the street. CLAIM STRIKE
WILL SOON END

Authorities Assert That Politicians Will Now Take a Hand.

NEW YORK RUMORS

Senators and Coal Operators Hold an Important Conference.

PLATT'S PREDICTION

(Special By Scripps-Mellae.) New York, September 5.—Renewed interest in the coal strike situation is being exhibited here today. It is now thought from good authority that prominent politicians and men interested with the operators will settle the disputed questions. While the operators say nothing themselves the opinions on 'change are that a settlement will be speedily made.

Quay and Penrose Senators Matt Quay and Boies Penrose of Pennsylvania are in the city and have had a long conference with the coal operators. While they will not make public the exact nature of their business here, nor its results it is thought that great political influence will be brought to bear on the operators, compelling them to stop the strike.

The Terms Back of all this is Senator Platt's statement some days ago that the strike would be speedily ended and that coal would not reach \$10 a ton this winter and would be as cheap as last year and as much of it. Senator Platt is a stockholder in several companies and this with the appearance of the two Pennsylvania senators gives color to the reports.

SIGNAL OFFICER'S
STRANGE FANCIES

Believes That There is a Conspiracy Against His Life—Has Been in Alaska Six Months.

Washington, D. C., Sept. 5.—(Special.)—An example of the mental havoc wrought by the extreme exposure and privation is furnished by the case of Captain Joseph E. Maxfield of the signal corps, who for about six months has been in charge of the army's signal work in Alaska. In the early spring Captain Maxfield left Valdez and traveled 300 miles to the north for the purpose of looking over the ground and outlining the work to be done by the signal corps during the summer. Then, with but a single Indian guide for a companion the captain started back by boat. He endured terrible privations and suffering before he finally arrived.

Is He Hunted? A few days ago the war department received a telegram stating that Captain Maxfield was beset with a hallucination that there was a conspiracy directed against his life, and it was suggested that the officer should be returned to the United States as soon as possible. Today orders were forwarded from the war department directing Captain Maxfield to return to his home to recuperate from what is hoped is only a temporary lapse of his mental faculties.

SURELY COMING

A Telegram from Worcester Says the Hough Porch Shade Company Will Locate Here.

(Special To The Gazette.) Worcester, Mass., Sept. 5.—At a meeting of the stockholders in the Hough Porch Shade company today it was voted to remove the business of that plant to Janesville, Wis. The reason for the change is that Janesville is in the heart of the region from which the company gets its raw material and a big saving in freight will be the result. Some 45,000 square feet of land has been secured, upon which will be erected a one-story brick factory 240 by 50 feet. The company is named after Azel C. Hough who will be superintendent of the new works. Mayor Fletcher is one of the principal stockholders.

H. S. Gilkey went to Monroe this morning to attend the fair. J. S. Allen of Beloit was in this city yesterday on business.

NO QUESTIONS
AS TO SINCERITY

Secretary Hitchcock Says President Roosevelt is Much in Earnest as to Trusts.

Washington, D. C., Sept. 5.—(Special.)—"While there are people who will differ with the president in his views on the proper solution of the trust problem," said secretary of the interior, Hitchcock yesterday, "no one can question his sterling honesty, integrity and sincerity. The only difficulty is that he has been misunderstood. The people have had an idea that he intended to tear down and pull to pieces these great financial interests and corporations, whereas the speech he made the other day explains the situation. He illustrated his purpose admirably when he said that he did not regard it as necessary to kill a patient in order to make him well."

"The President, as I understand his purpose simply means to enforce a strict compliance with the laws as they stand. That is what good citizenship means as described by the President. I do not think that there is the slightest occasion for fear or anxiety for the commercial interests of the country. The President is going to do his duty as he sees it, and he sees it from the very highest plane of citizenship. He will not swerve one iota from doing what he believes to be for the best interests of the people, who, after all, are sovereigns."

"There is no question in my judgment that the people of the country are absolutely behind him—and enthusiastically too. I believe that he will be the republican nominee of the party two years hence and that he will be elected. Furthermore, I believe that he ought to be. There is not the slightest question about that."

GREAT CROWDS

Annual Rock County Fair Came to a Close Today.

RECORD BREAKER

A Jockey Thrown from His Sulky and Injured Yesterday.

GOOD RACE PROGRAM

(Special To The Gazette.) Evansville, Sept. 5.—This afternoon closed the annual Rock county fair held in this city. During the whole week the attendance has been very large and yesterday the climax was reached when six thousand people were present. This afternoon the indications point to as large if not a larger attendance. The exhibits are also very much more in number than ever before and in all the buildings twice the amount of floor room could be used with comfort, the present quarters being really too crowded to show with advantage the poultry and cattle display here on exhibition.

Driver Hurt "Dan" Sweeney the driver of George Abandona in the two thirty pacing race yesterday afternoon was thrown from his sulky and over his horse's neck and badly injured. He was picked up from the track unconscious and taken to a hotel where medical aid was summoned. It was found that no bones were broken but the man was badly shaken up. He remained unconscious all night but this morning except for feeling very sore and bruised was apparently well. The accident occurred in the third heat of the race and the horse fell just at the entrance of the stretch throwing Sweeney completely over his head.

Races Today. This afternoon the Edgerton Special, the two thirty trot, a two forty pace and a running race are being held. The weather is clear and the track very fast. The races yesterday were close and exciting and in the first, the 2:24 trot it took seven heats to decide the winner.

Exhibits. The exhibits this year are of the best quality and the poultry show is of unusual interest owing to the diversity of breeds that are on exhibition. In the cattle, swine and sheep exhibits the same high grades are to be found and the stock is attracting much interest. The horses that are on the grounds are also very fine and of the best grade. The awards are pleasing to all the contestants and the success of this year's fair promises well for that of next.

FOUR DRUNKS ARE
BROUGHT TO COURT

One Escapes Jail by Returning to Beloit and Another Is To Sign the Pledge.

In the municipal court this afternoon, Judge Fifeid passed judgment on four drunk and disorderly cases. Thomas Jones preferred to pay a fine of \$5.20 to spending eight days in jail which N. Mortenson thought it cheaper to board with the sheriff for ten days rather than pay a fine of \$5.20.

Matt Sheehan of Beloit pleaded guilty to the charge but agreed to go back to Beloit and not come to this city for a year if the judge would let him go and the case was held open to give him an opportunity to prove his word good. John Dorsey was given five days in jail with a fine of \$5.20 or ten days additional. He begged the judge to let him go as he had a job in sight and offered to sign the pledge, so the judge promised to let him out tomorrow if he would sign the pledge before the priest and go to work.

Mr. and Mrs. H. A. Jones of Beloit were visitors in the city today.

HOTEL MEN TALK
NEW RATE SCALEWOULD CHANGE ALL THE HO-
TELS TO EUROPEAN.

MAY DECIDE ON FIXED PRICE

Are to Meet in Fond du Lac One
Week from Next Mon-
day.

On Friday, September 15, a meeting will be held at Fond du Lac of the hotel keepers of the state to discuss changing the hotels of Wisconsin from the European to the American plan. About sixty hotel proprietors from various parts of the state have already promised to be in attendance on that date, a large number of whom will come from hotels in Milwaukee. It is believed that this meeting will exert a great influence upon the entire state, not only upon the hotels but upon business in general through out Wisconsin.

Questions to Discuss.
The main question to come before this meeting for discussion, and the one that is directly responsible for the calling of the gathering is the feasibility of the proposed European plan. It is not believed that its adoption can be brought about in a single meeting. In fact there are many who doubt whether it will be brought about at all. Janesville hotel proprietors seem to favor it. That is the general sentiment in a large part of the state.

Some Oppose Plan.
Within the last few weeks, since the question was first brought up, arguments have been advanced on the other side. Several landlords who were at first greatly enthused over the prospect, and who emphatically denounced its present method of service, have after more detailed investigation found serious defects in the proposed method and are not now as eager to make the change as they were several weeks ago.

Higher Prices.
Hotel men claim that the price of provisions and the increase in the wage scale of prices has greatly cut down their profits. They argue that the butchers, grocers and the other merchants continue to make as large a margin as formerly while the hotel man has been compelled to serve viands that now costs him twenty five per cent. more at the same price. The only way to meet this difficulty that they can now figure out is to establish a uniform schedule of prices based upon a proper margin of profit, and make people pay for just what they eat.

Its Defects.
That the rule would work both ways however, can easily be seen. It would be a good thing for the hotel in the case of a man who pays fifty cents for a meal and under the new plan would order seventy five cents' worth. But there would be a loss on the man who now pays fifty cents and who might under the new plan order a meal for twenty or twenty five cents.

Sample Rooms.
Another matter of some importance will be discussed, and the outcome of which will be carefully watched by the traveling salesman, pertaining to the charges for sample rooms. The hotel men are now granting free of charge that for which they think in some cases should be paid. Should the present system be abandoned it is believed that a uniform rate will be effective in every first class hotel in the state.

"THE GAME KEEPER."

"The Game Keeper" which will be presented at the Myers Grand on Tuesday next is by Con T. Murphy, the author of more successful Irish dramas than any other writer living. Mr. Murphy has made a specialty of Irish plays, being an Irishman and having been reared in the Emerald Isle until he reached manhood, he became thoroughly familiar with the country and the people. Of all lands Ireland is the most beautiful, and bears an atmosphere that an author who is familiar with the surroundings can supply more pathos, wit and humor than with any other class of people. Who does not remember "The Fairies Well"? Will you ever forget "The Ivy Leaf," both of these plays are by the author of the "Game Keeper." He has given the stage several characters that are entirely new and novel.

Mr. Smith, the former star of "The Ivy Leaf" and "The Fairies Well" has been especially engaged to play the part of "Derry Doolan" the Game Keeper.

When Messrs. Rowland and Clifford purchased the play, of all the Irish comedians that were in the field Mr. Smith was the most suitable, as well as a singer of note.

The play is a wide departure from the former Irish dramas, and has quite a sumptuous scenic dressing, every scene being a reproduction of an original photograph.

One of the most beautiful stage settings is a scene showing the famous O'Neill Castle of Dublin County, Ireland; another unique and grand old familiar scene is that of the historic Dublin Chapel, that is known to every Irishman of Dublin County.

"Von Yohnson."

What Billy Scanlan was to "Miles Aroon," J. K. Kemmett to "Fritz," Nelse Erickson is said to be to "Von Yohnson." Billy Scanlan was a typical Irishman. Joe Emmett, a characteristic German and Nelse Erickson has been pronounced everywhere to be the most perfect impersonation of Swedish character that has ever been presented to the public. Mr. Erickson is a newcomer on the American stage, having only been in this country one year, having come here from Stockholm, Sweden, where he was a valued member of King Oscar's Royal Stock Company. Mr. Erickson is also a good singer and a good dancer. This is the eleventh year of "Von Yohnson" on the American stage.

DIAVOLO WAS THE
STAR ATTRACTIONTwo Immense Audiences Delighted
by Spectacular Features in
Yesterday's Circus.

Forepaugh & Sells Brothers gave two performances in this city yesterday which proved to be as thoroughly satisfying to the audience as they have proved in other cities this season. Not only did the city of Janesville turn out a generous throng on both the afternoon and evening, but large crowds drove in from neighboring villages, and the hotels were crowded with out of town guests. Many expressed the feeling that the circus had not made the strides in advance in the last years that were to be expected of an organization of its size and name. Nevertheless every display possessed genuine merit, and several features were of a grade that has rarely if ever been surpassed.

Many Sensational Features
Diavolo was of course the most eagerly awaited event of the evening, and his performance of looping the loop on a bicycle was sufficiently blood-curdling to satisfy the most exacting. The ten Peerless Pottery in their aerial act justified their programmed characterization as "aerial stars of the highest magnitude in the most brilliant constellation ever seen in the avian firmament, etc." Miming, the unicyclist ascending a spiral tower, the Jackson family of cyclists, the high school and cake walking horse were all acts of great merit, and wholly deserving of the applause they won. In their exhibition drill the Aurora Zouaves stand in a class by themselves, the precision of their maneuvers being made the more remarkable because their cadence is timed nearly a third more rapid than the regulation cadence of the national guard.

tain.

In response to a pressing request Evelyn B. Baldwin has telegraphed an explanation of the causes of his failure to reach the pole and the cause of his dispute with Captain Johannsen of the America, as follows:
"Thorsoe, Norway, Sept. 4.—The public has been deceived by false reports regarding the expedition. Nearly every member was faithful and my comrades ought and must have due credit for their work in establishing large depots at Camp Zeigler during March, April and May.

His Demands
"Sailing Master Johannsen's demand to become the America's captain were untenable and unbearable. His threat on December 15 to take possession of the ship as captain and deal with the crew in accordance with his own will might have spoiled the expedition's plan if enforced. Johannsen's refusal to obey the lee pilot's orders was one of the many reasons that caused his discharge and the promotion of three of his countrymen."

OTIS SKINNER HAS
GENUINE ANTIQUESFamous Actor Insists That Setting
and Costumes for "Lazarre"
Be Historically Correct.

Otis Skinner, who is a stickler for historical accuracy of detail, in all his noteworthy productions, has devoted the past three months to diligent research in order that his coming production of "Lazarre" may in every way be convincing and perfect.

Stories of actors' attention to detail in the presentation of various plays are well known. There is great satisfaction to the impersonator of the characters of an historic period to feel that he is accoutred in the actual habiliments of the time he represents; to know that he is wearing a fob, a rapier, a ring, a jewel peculiar to that date, or to have upon his stage a genuine piece of furniture handed down from other days.

Correctness of stage detail had a marked beginning with the productions of Charles Kean, and the following in this direction has become a fad with many actors. Charles Coghlan was an assiduous collector of rings, jewels and antique watches. Henry Irving's use of the Corsican sulphur match in the "Corsican" to gratify a sense of correct presentation.

Otis Skinner has had many tribulations in securing the proper adornments for his character and production of "Lazarre." One of the scenes of the play shows the court of Louis XVIII, and this court scene has been a source of trouble to Mr. Skinner. Genuine shoe and knee buckles of the time have almost disappeared, and are rarely seen outside the collections of antiques like that of the Lamy in Paris. During his travels on the road last season, Mr. Skinner haunted the antique shops of the country for weeks in search of these requisites, and was discouraged by their scarcity. Toward the end of the season, a letter from the widow of the late John E. Owens brought the intelligence that her husband's collection contained not only a pair of handsome paste shoe buckles and knee buckles, but a particular snuff box, all of which were more than one hundred and fifty years old, and were worn at some of the levees of the French courts.

Mrs. Owens was willing to part with these treasures to one who would value them for their artistic worth. The articles will ornament Mr. Skinner's attire in "Lazarre."

A correct Indian costume for the first act was another difficulty which Mr. Skinner encountered.

Howard Chandler Christy was commissioned to make a drawing of the actor in his Indian dress, and a pilgrimage was begun for proper and genuine material. A costume was out of the question; nothing but the regulation "made-to-order" buckskins were to be had. The hideous brand-newness of these stage Indian costumes appalled the actor and the artist. Finally through negotiations with an artist friend of Mr. Christy's a complete outfit of bonafide Indian garments was secured, and the Christy drawing was made.

Mr. Skinner is particularly proud of a pair of long-fringed buckskin leggings, worn by a warrior killed at the battle of "Wounded Knee."

PRESS COMMENT.

Madisonian: If young Leitch of Columbus is defeated in his attempt to capture the nomination for congress in this district on the republican ticket, he will probably make an effort to break into the democratic convention and secure the nomination there. Such a course should harmonize with the activity he has displayed ever since he was old enough to take a gun and go after an office.

Prairie du Chien Courier: Democrats are skeptical as to the president's intention against the trusts. They say that the same old story has been repeated before this by republican leaders and that it has resulted in nothing. The belief is expressed that the present agitation of the question is solely with a view to influencing the congressional elections and that congress will adjourn next spring without having enacted any legislation to curb the power of industrial combinations.

Oshkosh Times: It would be interesting to know if it is the intention of the consumers of this country to wait until they are entirely swallowed by the tariff-made trusts before they kick.

Madison Journal: The Dowlettes are gaining converts in Milwaukee. If the followers of the reincarnated prophet insist upon doing missionary work in Wisconsin, by all means let it be in Milwaukee.

Atlanta Journal: Maybe Mr. Kruger had this proposed lecture tour of the Boer generals in mind when he said the British would pay a price for the Transvaal that would make "humanity stagger."

Washington Post: A Chicago divine has received a call from a London congregation. Now that he is compelled to import his religion from this country, John Bull's bitterness must be running over.

Madison Democrat: Some one asks at what age people "turn rascals." Up in Wisconsin it happens when they belong to the other faction.

FATAL ACCIDENT
ON INTER-URBANWOMAN KILLED BETWEEN BE-
LOIT AND ROCKFORD.

FIRST CASUALTY ON THE LINE

She Was Dazzled by the Electric
Light, and Stood in the
Way.

As a result of the coroner's inquest held in Rockford Wednesday the Rockford-Beloit interurban road has been exonerated of all blame in the first casualty since the cars began running. "Accidental death" was the verdict which was rendered over the body of Mrs. Mary J. Packard of Rockford, aged seventy six years, who was killed by a car about four miles out of Rockford Tuesday evening.

Struck By Car.
As the car, which was in charge of Motorman Messerknecht of Rockford, was rounding a curve at its usual speed, the woman was seen standing close to the track or on it. Which the motorman could not determine. He slowed up and then attempted to stop, but before he could bring the car to a standstill the woman had been struck.

Badly Mangled.
The car was immediately stopped and the woman taken on board. The tender evidently hit her legs and then she struck her face against the side of the car fracturing her jaw in several places. The coroner's inquest brought out the fact that it was probably not the injuries which caused her death but the shock of the impact, leading to hemorrhage. As soon as the car reached Rockford she was taken to a sanitarium, but she died at a little after quarter past eight that evening.

Light Dazzled Her.
Mrs. Packard was an old resident, owning farm property and real estate in Rockford. It was believed that the light dazzled her so that she did not realize that she was standing in the path of the car. It has been impossible to find a pocketbook containing fifty dollars which she had with her when she left Rockford. Other possessions were found after a careful search at various distances from the point of accident. Among other things, her false teeth were found where they had been knocked from her mouth.

Chippewa Post: It is reported that some of the coal mine operators would grant the demands of their employees who are out on a strike, were it not that by so doing they would stultify themselves. But what a shining stultification it would be, under the circumstances, to be sure.

The Happy Home.

Happiness must be founded on health. Where there is ill-health there will surely be unhappiness. The happiness of many a home has received its downfall at the table, spread with rich and dainty foods. The first symptoms of disease of the stomach are ignored as being disagreeable but not dangerous. Presently dyspepsia or some other form of disease fastens on the stomach.

At any stage Dr. Pierce's Golden Medical Discovery will cure diseases of the stomach and other organs of digestion and nutrition. But the cure is quicker if the "Discovery" is used in the earlier stages of disease. If you have any symptoms of diseased stomach use "Golden Medical Discovery" and be cured.

"I feel that I would be doing an injustice to you if I did not send you a statement of my case," writes Mrs. David W. Guice, of Hamburg, Franklin Co., Miss. "I had liver complaint and indigestion. Everything that I ate disagreed with me. I suffered all the time with swimming in my head; heart beat too fast; my feet and hands were cold all the time. Did not sleep well at all. Was able to get about but very little. I commenced to use Dr. Pierce's Golden Medical Discovery and Pleasant Pellets in May, 1897, and by December I could begin to get about very well. Have been doing my work ever since. Feel better than I have for several years."

CLEVER CROOK MAKES HAULS

SECURES MONEY AND SOME
VALUABLE JEWELRY.

HE PASSED AS A BOOK AGENT

Used a Skeleton Key To Effect an
Entrance — Did Skillful
Work

During their stay in Janesville the Forepaugh & Sells Bros. shows kept up their reputation established in Milwaukee, Green Bay and Oshkosh for having a following of crooks, who were successful in two robberies and failed in two others.

Despite the warning given by the papers to people, not to leave their homes alone and to take care of their valuables while the circus and its attendant crowds were in town many people did leave their homes alone and left valuables lying around loose.

Mr. Baker Robbed
At J. P. Baker's home \$32.25 and a ring worth \$18.50 was secured. At Mrs. Mary Crosssett's, 154 East Milwaukee street a gold watch and a gold pin and \$10 in money was taken, as was a ring belonging to Miss L. F. Peterson. At Judge Dunwiddie's and Dr. Frank Farnsworth's the men did not succeed in getting into the house.

The crooks that did the work were evidently old hands at the business and knew enough in each instance to get away without being questioned, although they were seen by at least two parties. As near as can be learned the party that did the work posed as a book agent and carried a book under his arm so that he could make a bluff if picked up.

One Man's Work
There is very little doubt but that one man did all of the work here. He was in the first ward in the morning and the third ward in the afternoon. He is described as being a man of medium height, smooth face and dark hair, dressed in a slate colored suit with a light fedora hat with a black band.

His game was to call at the house that seemed deserted and ring the door bell loudly. If no one answered the call he would try the door with a skeleton key and if not successful in opening it would walk around to the side door and try that. If he succeeded in getting into the house he made a thorough and rapid search for money and valuables, but was sure to put things back as he found them or at least to close all drawers so that no one would notice anything wrong until they had occasion to open a drawer. He would lock the door when he left, so that things looked all right and no one would suspect that they had been robbed.

His First Visit
Evidently the first place visited by the gentleman yesterday was J. P. Baker's residence at 204 North High street. Here he gained entrance to the house by the way of the front door which was locked with a spring hook. No one was at home and he had all of the time necessary to make a thorough search of the house. He opened almost every drawer and closet in the house as is shown by his disarranged contents, but was sure to shut all of them after his search.

Secures Money
At Mr. Baker's he secured \$23.75 and a gold Ellis' ring with H. W. McNamara's monogram on it that was in a dresser drawer in Mr. and Mrs. McNamara's room. In Fred Baker's room he secured \$3 in silver. He had taken \$10 and deposited it in the bank yesterday morning or he would have been more of a loser. In the servant girl's room he secured \$3.50.

After Money
Evidently he was after money more particularly as in Mrs. McNamara's room there were a couple of gold lockets and a chain and other valuable things he did not touch. There was also a bank filled with pennies sitting on the mantle which he broke a piece out of, but finding that it contained only pennies he put the piece back in place and pushed the bank up against the wall, so the break would not be noticed.

Discovered Late
The robbery was not discovered until ten o'clock at night when Mrs. McNamara started to retire. She went to put some of her jewelry in a drawer and found it all missing and the money and ring gone. She immediately notified the other members of the family and a search revealed the balance of the stealings.

Is First Seen
After leaving Baker's the man must have gone directly to Judge Dunwiddie's. There he rang the front door bell and aroused the bird girl who was up stairs. She did not answer the bell at once and heard some one try a key in the lock thought that it was the Judge trying to get in. The man then left the front door and went around to the side door. About this time the girl got down stairs and walked up to the window near the door. The man saw her there and turned away and walked out of the yard. The girl telephoned the police giving a description of the man and it talked closely with "Dayton Red" but he was in the lock up at the time. However, to make sure Chief Hogan took him up there but the girl said he was not the man.

At Dr. Farnsworth's
During the afternoon the crook visited Dr. Farnsworth's house at the corner of Court and Wisconsin streets. Here he could not work the front door but succeeded in getting into the basement. This was as far as he could go however as the door leading from the basement to the floor above had a bar across it.

From Dr. Farnsworth's he visited Miss Peterson's home at 154 East Milwaukee street. The house is occupied by Miss Peterson and Mrs. Crosssett and Miss Ada Crosssett. He found no one at home here and succeeded in unlocking the front door and getting in. He ransacked the house, securing \$10 in money, a valuable watch and a gold pin of Mrs. Crosssett's and a gold ring belonging to Miss Peterson.

Is Seen Again
While he was in the house Charles

Patterson, who lives in a house that is farther back from the street than Miss Peterson's house, was out in the yard talking with Mrs. A. T. Kemmitt. They heard the front door of their house lose and saw a man walk hurriedly down the steps and go down the street. They did not know that Mrs. Crosssett was away from home so thought nothing of it until later when the robbery was discovered.

Same Man
The descriptions given of the man they saw talked with that given by the servant girl at Judge Dunwiddie's. A man answering the description given by the ladies was seen about 3:15 o'clock yesterday afternoon by Chief Hogan going down Main street near the Myers house. At that time there had been nothing reported to the chief but the Dunwiddie matter so he did not molest him. There is now but little doubt that this was the man that was doing the work. He was a sharp crook and understood his business.

CITY DEATH ROLL

Margaret Connolly

Miss Margaret Connolly, of Muskegon, Mich., who was here on a visit to her sister, Mrs. James Rooney, died yesterday morning at the home of Mrs. James Smith, Fourth avenue, after a short illness. The body was taken to her home this morning for interment, short services being held from the home of Mrs. Smith. The funeral proper will be held in Muskegon, where the deceased resided and was well and favorably known. Her death was very sudden, she having been ill but a day or two. She came here about two months ago to spend the summer with her sister and other relatives.

BELOIT PLANS FOR CARNIVAL

AMBITION SEEMS TO BE TO OUT-
DO JANESVILLE.

NO CHANCE FOR SENSATIONS

Promoters Say Coming Carnival Will
Be Best Ever Seen in
the State.

Beloit will have the ne plus ultra of all Wisconsin carnivals, so their committee fondly believe. One thousand dollars has been raised by business men and the cash is ready for Col. Flisk, whose carnival and Jahrmakkt company will furnish the attractions of the week from September 22 to 27.

A Clean Show
Col. Flisk told the merchants who have been prominently concerned in securing the attraction for this week that he believes that the accounts of the Janesville carnival were rather more highly colored than the actual facts warranted. Nevertheless he said that he would furnish an entertainment so clean and attractive that it would be impossible to weave a sensational story about it.

Will Forfeit \$1,000.
He then made a proposition which seemed eminently fair to the committee. The \$1,000 which is to be paid Col. Flisk will be left in the hands of ex-Sheriff W. H. Appleby, who is the treasurer of the Merchants' association, until the week is over and judgment has been passed upon it by the public.

If the show is not clean and all that is claimed for it then the money will be donated to the associated charities and hospitals of Beloit.

To Beat Janesville
In commenting on the proposed carnival the Daily News of Beloit says: "Col. Flisk's plan is to substitute a stock show instead of the silly fake marriage in a den of lions. He will decorate the streets with thousands of Japanese lanterns and will provide innocent amusement for all."

ORDINANCE MAKES MYERS TROUBLE

"Caught in the Web" Production
Plays Saturday Instead of
Sunday Night.

Owing to the action of the Common Council in passing the ordinance prohibiting Mr. Myers from opening his theater for entertainments on Sunday night, without giving him time to properly cancel his contracts without loss to himself, the management of the opera house was this morning faced with the arrival of the "Caught in the Web" company and all their car load of scenery ready to play here on Sunday night.

Contracts
Owing to the contracts that are required of theatrical managers a two weeks' cancelling notice must be given before the contract can be declared off. Thus Mr. Myers would be the loser of a money consideration if he did not put on the show. In the face of the opposition that has been raised and the council ordinance Mr. Myers was loath to try and have the entertainment as scheduled. He had not had time to give the company the required two weeks' notice and they could hold him to their guarantee.

Matter Arranged
In order to protect himself and the company that had come here in good faith, Mr. Myers has arranged to have the performance given on Saturday night instead of on Sunday. The time for advertising and arrangement for the performance is necessarily short and doubtless many will not know of the change in dates. In the face of this Mr. Myers will offer to the public, "The Caught in the Web" production on Saturday evening.

Strange Predicament
In speaking of the matter Mr. Myers said: "I am placed in a very peculiar predicament. When I made my dates for this company I expected to hold Sunday night performances. On finding that the public sentiment was against it I sent word to all managers booked for Sundays cancelling their engagements. In all contracts there is a two weeks' clause of notice and in the case of 'The Caught in the Web' company I was not able to fulfill it. They are here and are ready to give their performance as contracted for. The only way out of it for me is to set the date back one night from Sunday to Saturday and the management have very kindly offered to do this. If they did not I would have to pay the guarantee as contracted for."

USUAL MISHAP ON STREET CAR LINE

Car Runs Off the Track and Cuts
Down Company's Circus Day
Profits.

Milton avenue car No. 7 of the city railway company was completely off the track on Thursday afternoon on the curve below the Buob brewery, and it was not pulled back into place until this morning. In the desire to accommodate the crowds that were going to the circus, all cars on the Main street line paid but little attention to the schedule and ran as often as they were filled.

As the car was going around the curve at a better clip than usual the wheels left the rails completely. The cars were delayed by the accident for some time, and it doubtless greatly diminished the profits of the railway company. The other cars ran as usual after a little delay but No. 7 was left off the track until this morning.

WILL SPEAK IN THIS CITY SOON

FRANCIS MURPHY TO BE HERE
SUNDAY, SEPT. 14.

WILL BE WARMLY WELCOMED

The Gifted Temperance Apostle Will
Visit Janesville on His Way
to California.

Francis Murphy, the great temperance apostle, will be in this city on Sunday, September 14, and will speak at least twice on that day. This announcement will be welcomed with rejoicing and thankfulness by his many friends who have been anticipating his visit for some time.

The news of the late of Mr. Murphy's coming was received in a letter written to Dr. James Mills from French Lick Springs, Ind. In this letter Mr. Murphy signified his willingness to speak both morning and evening and stated that he would be pleased with any arrangement which Dr. Mills might make, stipulating only that he should not be overworked. The letter also contained personal remembrances for Dr. Mills and for the other workers in the Francis Murphy Temperance League.

To Arrange For Meetings
Although Mr. Murphy states in his letter that he thinks Sunday will be all this city will require of his services an effort will doubtless be made to induce him to prolong his visit. A meeting of the leading workers in the Francis Murphy Temperance League will be held within a few days to plan for the meetings on Sunday, the 14th. These plans will probably include a general meeting of the league in the afternoon and some kind of a reception for the great leader. In all probability the churches will join in a union evening service of which Mr. Murphy will take charge. It is needless to say that no matter how many meetings are held, the attendance will be limited only by the capacity of the buildings in which they take place, for the silver-haired, silver-tongued advocate of temperance has a host of admiring friends in this city.

Bound For California
Mr. Murphy has been spending the summer in the east visiting his sons, John Francis Murphy of Philadelphia, and Robert and Thomas Edwin Murphy of Johnston, Pa.; and his daughter, Mrs. Weyland Trask of New York. He will visit Wisconsin on his way to Los Angeles, Cal., where he and his wife will make their home at least for this winter. Mr. Murphy will be engaged in gospel temperance work in connection with one of the churches. While in Wisconsin Mr. Murphy will visit his son William, whose home is in Whitewater.

IS REJECTED BY UNION CONGRESS WOULD DIE OF INANITION

Trades Organizations Would Cease to Exist Because Necessity for Their Being Would Be Wiped Out—Asks Parliament to Define Liability.

London, Sept. 5.—The resolution introduced by the Dock, Wharf and Riverside union in favor of compulsory arbitration caused a heated discussion at the Trades Union congress. The resolution was as follows:

"In view of the colossal growth of trusts and combines of speculative capitalists, and consequent concentration of capital and monopoly of industry, this congress foresees the grave danger, to the nation and the toilers, of dislocation of trade, stoppage of work, and distress of wage earners. To avert such a calamity, this congress calls upon the legislature to pass an act creating a supreme court of arbitration, the court to be presided over by a lord justice, and to be constituted by an equal number of workmen's and employers' representatives, who shall take evidence from the parties aggrieved, or their representatives; legal experts to be in all cases debarred from acting as representatives; the power of the court to be compulsory.

Conciliation Courts.

"Conciliation courts for the various industrial centers are to be formed to act in conjunction with the supreme court, and to be termed district courts. In all cases workmen's representatives are to be selected by trades unions as commissioners or members of the supreme court. For the effective dealing with disputes, commissions are to be constituted, for the great staple trades, viz., mining, textile, transport, engineering and agriculture, with a crown judge over each. The courts failing to settle disputes, cases are to be submitted to the supreme court. Only unions registered under an act and firms covered by registration under an act identical with the trades union act are to be eligible for consideration of courts or the supreme court of arbitration. We, therefore, instruct the parliamentary committee to draft a bill for the purpose aforesaid."

Menace to Unions.

Many of the delegates opposed the resolution on the ground that under such a system the trades unions would not only lose many of the advantages they had wrung from the employers, but would die of inanition, since the need for their survival would no longer exist. The resolution, eventually, was rejected by 661, 000 to 303,000 represented votes.

After vigorous protests against the recent Taff Vale and picketing judgments the congress adopted unanimously the following resolutions regarding picketing and trades union funds, both introduced by the Amalgamated Carpenters and Joiners' union:

Favors Picketing.

"1. This congress urges upon the parliamentary committee to use every means in their power to secure such amendment of the trades union act as shall make it lawful for any person or persons, on behalf of a trades union, to attend at or near a house or place where another person resides or works, or carries on business, or happens to be, or the approach to such house or place, for the purpose of obtaining or communicating information, or peacefully persuading any person to abstain from working, and any attendance, communication or persuasion as aforesaid, without using or threatening violence, shall not be deemed a watching or besetting within the meaning of section 1 of the Conspiracy and Protection of Property Act, 1875.

Want Liability Defined.

"2. That we request the parliamentary committee to approach members of parliament with a view to the introduction of a bill to define the liability of trades unions which shall provide that no action shall lie against a trades union for the recovery of damages sustained by any person whatsoever, by reason of the action of a member or members of a union or persons acting on this or their behalf, unless it be proved that such member or members or persons acted with the directly expressed sanction and authority of the trades union rules."

Sacramento, Cal., Sept. 5.—The Walnut Grove stage from Sacramento was held up by a lone highwayman near Courtland, sixteen miles from Sacramento, last evening. Joseph Fisher, a passenger, and Ed Bryan, the driver were robbed. Henry F. Ishman, another passenger, resisted and wrested the pistol from the man's hand. The robber broke from Ishman's grasp and escaped.

Home Rule for Iceland.

Copenhagen, Sept. 5.—Iceland's althing has passed a bill giving the island complete home rule. The governor of Iceland, who is appointed by the king, will henceforth be responsible to the althing.

Cattle Are Poisoned.

Baraboo, Wis., Sept. 5.—Farmer Butner of Big Creek lost eight head of cattle by poisoning. Some person mixed arsenic with flour and salt and put it around a spring where the cattle were accustomed to drink.

THOUSANDS DIE ON MARTINIQUE

EJECTS BIG COLUMN OF FIRE

Heat So Intense That No Smoke Is
Emitted From the Burning Volcano
—Neighboring Peak Disappears in
the Crater.

Castries, Island of St. Lucia, B. W. I., Sept. 5.—The royal mail steamer Yare arrived here from the Island of Martinique. She brings the report that a violent volcanic eruption occurred there Sept. 3 and that about 2,000 persons are said to have perished. Large numbers of people are leaving the island. In the eruption of Aug. 30 more than 1,600 lost their lives.

Cloud of Dust.

The British steamer Savan, Captain Hunter, arrived here from the Island of Trinidad. She was covered with dust and reports that she ran into a dense cloud of dust while twenty miles south of St. Vincent. The coast telephone service reports that a violent eruption of La Soufriere, on the Island of St. Vincent, was observed at midnight.

LA SOUFRIERE QUIET.

Investigation Shows No Signs of Danger From That Source.

Point-a-Pitre, Guadeloupe, F. W. I., Sept. 5.—Gunlike reports from the south give warning that Mont Pelee is still violently active. Thick black clouds hang low in the sky. The heat is intense. Although the governor has issued a proclamation announcing that the commission sent to investigate La Soufriere reports that there are no indications of danger from that source, public panic has abated in no manner.

Fear Tidal Wave.

It is generally believed that the Island of Martinique is doomed to total destruction, and the fear is that when the catastrophe comes, Guadeloupe will be visited by an all-destructive tidal wave. Business is absolutely at a standstill. Few shops are open, and if it were not for the efforts of a few more valiant souls hundreds would starve to death here because of their fear of a more terrible death.

Tower as Monument.

The details that have been received prove that the eruption of Mont Pelee of Aug. 30 was far more violent than any of the early explosions. The results were more terrible than first reported. At Morne Rouge more than 1,000 have died and many others are so injured that they cannot recover. Almost the entire village has been destroyed, the church tower standing as a sort of monument to the dead.

Gendarmes Die.

The gendarmes that were quartered at Morne Rouge were found dead with their horses in the road, they having made an unsuccessful attempt to escape the fire which was showered on them from the crater of Pelee. The positions in which their bodies were found tell the story of the flight. One by one they were overtaken by the wall of flame that was shot down from the mouth of the volcano. Not one escaped. The troops that were sent from Fort de France to rescue the wounded were compelled to flee to escape the destruction which had enveloped their comrades.

Column of Flame.

As the eruptions continue the mouth of Mont Pelee grows in size. It is now of enormous proportions. Morne Lacroix, one of the peaks that reared skyward from the side of Pelee, has fallen bodily into the crater and has been completely swallowed. There seems to be a side pressure in the crater, and the burning chasm widens perceptibly every day. Clouds no more hang about the crest of Mont Pelee. The terrific heat seems to drive everything away. The column of flame and smoke rears directly into the heavens, so that its top is lost to sight. It is estimated that this column is eight times as high as the volcano. In the darkness of the nights it has the appearance of a stream of molten iron, standing fixed by some mysterious power between heaven and earth.

Tide Sweeps Inshore.

From Morne Capote the relief troops were compelled to make a quick retreat, though they succeeded in taking out a few wounded. The entire country nearly up to Fort de France is buried under a deep cover of ashes. This has made it almost impossible to find the bodies of those who have perished while fleeing to the seacoast. At Grande Anse the tide swept 300 feet inshore, destroying many houses and drowning scores of inhabitants.

Even at Fort de France the most stout of heart have lost courage and believe that the end will be nothing less than the destruction of the entire island.

Budapest, Hungary, Sept. 5.—The Hungarian ministry of agriculture estimates the world's yield of grain this year as follows: Wheat, 2,905,320,000 bushels; rye, 1,579,040,000; barley, 1,141,650,000; oats, 3,004,720,000; corn, 2,973,450,000. The European wheat crop is estimated to show an increase of 193,120,000 bushels over the crop of 1901, and a decrease of 136,320,000 bushels is expected in the European corn crop. The wheat crop of the United States is estimated at 646,100,000 bushels, with a surplus of 210,160,000 bushels. The Canadian wheat crop is estimated at 93,720,000 bushels, with a surplus of 29,320,000 bushels.

LAWYER SHOTS DOWN NEGRO

Cleveland Man Uses Rifle on a Chicago Burglar.

Cleveland, Sept. 4.—Simon Johnson, a negro who gave his home as Chicago, was shot down just outside the residence of Attorney Charles N. Sheldon, 297 Euclid avenue, by Mr. Sheldon. The negro tried to escape after being shot, but was trailed by bloodhounds and captured about 600 yards from the house. It is believed the capture of Johnson clears up the mystery of a series of burglaries in East Cleveland during the last three weeks. Mr. Sheldon was awakened by a noise in his house, and, arising, saw the negro just outside his door. He procured a rifle and shot the man in the groin. The negro was taken to the town hall and a physician was summoned. His injuries probably are fatal.

In Justice Court: In Justice Reed's court this morning the case of David Barlass against Charles Spencer was called. The attorneys appeared and announced that a settlement had been reached out of court by the parties concerned.

Case Continued: In the municipal court today the case of the city of Janesville vs. the Janesville Street railway Co. was continued until Nov. 11.
